Activity 1 :

1. Write a Java program to print 'Hello' on screen and your name on a separate line.
Expected Output :
Hello
Alexandra Abramov

2. Write a Java program to print the sum of two numbers.
Test Data:
74 + 36
Expected Output :
110

3. Write a Java program to divide two numbers and print them on the screen.
Test Data :
50/3
Expected Output :
16

125 / 24 = 5

4. Write a Java program to display the following pattern.
Sample Pattern :

```
   J    a   v    v   a
   J   a a   v   v  a a
J  J  aaaaa   V V  aaaaa
 JJ   a    a   V  a    a
```

5. Write a Java program that takes three numbers as input to calculate and print the sum of the numbers.

6. Write a Java program to print an American flag on the screen.
Expected Output

```
*  *  *  *  *  *   ==================================
 *  *  *  *  *     ==================================
*  *  *  *  *  *   ==================================
 *  *  *  *  *     ==================================
*  *  *  *  *  *   ==================================
 *  *  *  *  *     ==================================
*  *  *  *  *  *   ==================================
 *  *  *  *  *     ==================================
*  *  *  *  *  *   ==================================
==================================================
==================================================
==================================================
==================================================
==================================================
==================================================
```

7. Write a Java program to print a face.
Expected Output

```
 +"""""+
[|  o  o  |]
 |    ^    |
 |   '-'   |
 +-----+
```
